

CARL JUSTINE H. DELLOSA

General Trias, Cavite • +63 976 298 6849 • justinedellosa12@gmail.com • kriemmm.github.io/justine-dellosa/

PROFESSIONAL SUMMARY

Entry-level IT professional with hands-on experience in technical support, hardware and software troubleshooting, Windows environments, and basic networking. Built and administered a Windows Server home lab covering Active Directory, DNS, shared folders, Group Policy, user and computer accounts, and domain integration. Also developed and deployed a real-world web application using React.js, Node.js, Supabase, and Hostinger. Seeking an IT Support, Technical Support, or Junior System Administrator position.

TECHNICAL SKILLS

Systems	Windows 10/11, Windows Server, Active Directory, Group Policy, DNS
Networking	IP addressing, basic network troubleshooting, domain connectivity
Technical Support	Hardware/software troubleshooting, end-user support, system maintenance, ticketing
Web Development	React.js, Node.js, JavaScript, HTML, CSS
Database & Hosting	Supabase, Hostinger, web deployment and maintenance
Tools	Git, GitHub, VirtualBox

SELECTED PROJECTS

BlackBox Scripts — E-commerce Website | Freelance Project

React.js • Node.js • Supabase • Hostinger | blackboxscripts.com

- Developed and deployed a customer-facing e-commerce website for a gaming software and subscription business using React.js and Node.js.
- Built responsive interfaces for product listings, subscription plans, pricing, and customer-facing content.
- Developed backend functionality with Node.js and integrated Supabase for application data and database management.
- Deployed the application on Hostinger and performed ongoing maintenance, troubleshooting, and feature updates.
- Worked directly with the business owner to translate requirements into functional website features.

Windows Server & Active Directory Home Lab | Personal Project

- Built and configured a virtualized Windows Server environment using VirtualBox for hands-on system administration practice.
- Configured Active Directory Domain Services, domain users and computers, Organizational Units, DNS, and IP addressing.
- Created and managed shared folders and practiced assigning appropriate access permissions for domain users and groups.
- Configured and tested Group Policy to manage domain computers and user environments.
- Joined a Windows client to the domain and practiced authentication, administration, and troubleshooting of domain, DNS, and connectivity issues.

PROFESSIONAL EXPERIENCE

On-the-Job Trainee — Makati Medical Center (ITSD) | April–July 2025

- Provided end-user IT support for hardware, software, and network-related issues.
- Troubleshot Windows systems, printers, and peripherals; assisted with system maintenance and user account support.
- Documented and tracked technical issues using a structured support approach.

HR / Admin Staff — Readore Technology | November 2025–February 2026

- Administered the company timekeeping system, monitored DTR and overtime records, maintained employee records, and supported recruitment tasks.

Computer Technician — GoodGameWellPlayed | July 2017–September 2019

- Diagnosed and repaired desktop and laptop hardware/software issues; installed operating systems and applications.
- Performed system maintenance and upgrades and provided technical recommendations.

EDUCATION

Bachelor of Science in Information Technology — Cavite State University - Cavite City Campus | 2021–2025
